

THE JOURNAL
OF
ANIMAL BEHAVIOR

VOLUME 2, 1912

EDITORIAL BOARD

Madison Bentley University of Illinois	Edward L. Thorndike Teachers College, Columbia University
Harvey A. Carr The University of Chicago	Margaret F. Washburn Vassar College, Editor of Reviews
Samuel J. Holmes The University of California	John B. Watson The Johns Hopkins University
Herbert S. Jennings The Johns Hopkins University	William M. Wheeler Harvard University
Robert M. Yerkes, Harvard University Managing Editor	

Published Bi-monthly
at Cambridge, Boston, Mass.
HENRY HOLT AND COMPANY
34 West 33d Street, New York
G. E. STECHERT & CO., London, Paris and Leipzig, Foreign Agents

Entered as second-class matter March 7, 1911 at the post-office at Cambridge, Boston,
Massachusetts, under the act of March 3, 1879

CONTENTS OF VOLUME 2, 1912

NUMBER 1, JANUARY-FEBRUARY	PAGES
J. E. Wodsdalek. Formation of associations in the May-fly nymphs <i>Heptagenia interpunctata</i> (Say).....	1- 19
James Rollin Slonaker. The normal activity of the albino rat from birth to natural death, its rate of growth and the duration of life.....	20- 42
Mildred A. Hoge and Ruth J. Stocking. A note on the relative value of punishment and reward as motives.	43- 50
Charles W. Hargitt. Behavior and color changes of tree frogs.....	51- 78
M. E. Haggerty. A case of instinct.....	79- 80

NUMBER 2, MARCH-APRIL

J. S. Szymanski. Modification of the innate behavior of cockroaches.....	81- 90
S. O. Mast. The reactions of the flagellate <i>Peranema</i> ..	91- 97
Vinnie C. Hicks and H. A. Carr. Human reactions in a maze.....	98-125
S. J. Holmes. Phototaxis in the sea urchin, <i>Arbacia punctulata</i>	126-136
Walter S. Hunter. A note on the behavior of the white rat.....	137-141
Robert M. Yerkes. The discrimination method.....	142-144

NUMBER 3, MAY-JUNE

M. F. Washburn and Edwina Abbott. Experiments on the brightness value of red for the light-adapted eye of the rabbit.....	145-180
E. H. Harper. Magnetic control of geotropism in paramoecium.....	181-189
Albert M. Reese. Food and chemical reactions of the spotted newt, <i>Diemyctylus viridescens</i>	190-208
S. O. Mast. Discussion of certain questions raised by Parker in a review of "Light and the Behavior of Organisms".....	209-217
Robert B. Rockwell. Peculiar reactions of a striped ground squirrel.....	218-221
Edward R. Warren. Delayed imitation in a cat.....	222-224

CONTENTS

iii

PAGES

Walter B. Swift. Psychological results in reactions to tone before and after extirpation of the temporal lobes.....	225-228
---	---------

NUMBER 4, JULY-AUGUST

Edwin G. Boring. Note on the negative reaction under light-adaptation in the planarian.....	229-248
S. B. Vincent. The mammalian eye.....	249-255
S. O. Mast. Behavior of fire-flies (<i>photinus pyralis</i>)? with special reference to the problem of orientation..	256-272
Wallace Craig. Observations on doves learning to drink	273-279
Frederick S. Breed. Reactions of chicks to optical stimuli.....	280-295
Wallace Craig. Behavior of the young bird in breaking out of the egg.....	296-298

NUMBER 5, SEPTEMBER-OCTOBER

Lawrence W. Cole. Observations of the senses and instincts of the raccoon.....	299-309
K. S. Lashley. Visual discrimination of size and form in the albino rat.....	310-331
Robert M. Yerkes. The intelligence of earthworms....	332-352
C. H. Turner. Reactions of the Mason wasp, <i>Trypoxylon albotarsus</i> , to light.....	353-362
John C. Phillips. Note on wildness in ducklings.....	363-364
Charles A. Coburn. Singing mice.....	364-366

NUMBER 6, NOVEMBER-DECEMBER

Margaret F. Washburn. Literature for 1911 on the behavior of lower invertebrates.....	367-379
C. H. Turner. Literature for 1911 on the behavior of spiders and insects other than ants.....	380-399
William M. Mann. Literature for 1911 on the behavior of ants and myrmecophiles.....	400-420
John B. Watson. Literature for 1911 on the behavior of vertebrates.....	421-440
Harvey Carr. Thorndike's "Animal Intelligence"....	441-446
Georges Bohn. Holmes's "The Evolution of Animal Intelligence".....	447-451
Announcement. The Behavior Monographs.....	452

Subject and Author Index

VOLUME 2

Original contributions are marked by an asterisk (*).

- * **A**bbott, E. Vision in the rabbit, 145.
- *Age, of rat, 20.
- Allard, H. A. Reactions of insects, 383; studies of sound production in insects, 395, 397.
- *Allolobophora, habits of, 332.
- Amphibians, literature on, 423, 432, 436.
- Andrews, E. A. Behavior of Termites, 380, 397.
- Annelids, behavior of, 370.
- *Ants, literature on, 400; orientation in, 413, 419; stereoscopic pictures of life of, 413, 419.
- *Arbacia, phototaxis in, 126.
- *Associations, in the May-fly, 1. Audition, see Hearing.
- B**anks, N. Habits of Phorid flies, 392, 397.
